## MEETING SUMMARY

The goal of the Seacoast Transportation Corridor (STC) Vulnerability Assessment and Plan Project is to improve regional coordination in New Hampshire for transportation networks vulnerable to sea-level rise and other coastal hazards in order to maximize information sharing, identify opportunities to fill data gaps, and develop shared understanding of options for future transportation planning.

Objectives:

- Update of the STCVA project by convening the second meeting of the STCVA Advisory Committee represented by 10 coastal municipalities, NHDOT, UNH, NHDES Coastal Program, and the Rockingham Planning Commission,
- Present the STCVA project model and mapping results
- Obtain input about municipal needs related to transportation planning for sea-level rise and coastal hazards.

## MEETING AGENDA

- 1:00pm Introductions – Julie LaBranche
- 1:10pm Overview of the STCVA project – Julie LaBranche
- 1:20pm Summary of travel model methodology – Christian Matthews
- 1:35pm Review site selection prioritization methodology – Dave Walker  
Review of prioritization web maps – Christian Matthews
- 1:55pm CAC discussion about municipal/local priorities - Julie
- 2:30pm Use of NH CFR guidance for one of the draft sites – Kirsten Howard
- 2:50pm Wrap up and next steps – Julie LaBranche

*This project was funded, in part, by NOAA's Office for Coastal Management under the Coastal Zone Management Act in conjunction with the New Hampshire Department of Environmental Services Coastal Program.*
