- | | | |
|-----------------------------|------------------------|-------------------|
| RPC Towns 2013 | Shoreline; Stream | State Road |
| Water Feature | Apparent Wetland Limit | Local Road |
| Tidal Feature | Intermittent Stream | Unmaintained Road |
| Other Surface Water Feature | Private Road | |

2015 Regional Parcel Dataset

RPC generally does not maintain digital parcel data but does have keep parcel data for all of our member communities. Tax maps have been acquired from various sources and range in vintage from 1998 to 2015. The RPC keeps parcel data as it was distributed to the agency (though in some instances data was converted into a GIS format). There may or may not be assessing, metadata or other associated information attached to the parcel shown. The RPC does not distribute parcel data without prior permission from the associated community. The data shown on this map may contain errors due to conversion and may be out of date. This map should only be used for general informational purposes.

Base Features (transportation, political and hydrographic) were automated from the USGS Digital Line Graph data, 1:24,000, as archived in the GRANIT database at Complex Systems Research Center, Institute for the Study of Earth, Oceans and Space, University of New Hampshire, Durham, NH; 1992-2012. The roads within the Rockingham Planning Region have been updated by NH Department of Transportation through local input by the RPC where available.

Although these data have been processed successfully on a computer system at the Rockingham Planning Commission, no warranty expressed or implied is made regarding the accuracy or utility of the data on any other system or for general or scientific purposes, nor shall the act of distribution constitute any such warranty. It is also strongly recommended that careful attention be paid to the contents of the metadata file associated with these data to evaluate data set limitations, restrictions or intended use. Rockingham Planning Commission shall not be held liable for improper or incorrect use of the data described and/or contained herein.

RPC extends every effort to ensure map data is current and complete, however, errors do happen. Please let us know if you spot errors or omissions.
